## 1943 SPRING PRICES

### READ CAREFULLY BEFORE ORDERING

Orders from this list will be delivered anywhere in the United States. However, we do not solicit orders for less than \$3.00 to be delivered via Express or Parcel Post outside of the Second Zone. Customers living in the State of Washington must include 3% sales tax, unless bulbs are to be resold. In which case kindly include your State Nursery License number.

With the decreased acreage planted in 1942 — along with the bulbs lost at digging time last fall due to shortage of labor, there is an acute shortage of gladiolus bulbs as compared with stocks on hand at this time in previous years. Early orders no doubt will be filled, but second choice on late orders would be advisable.

Due to gas rationing many customers will not be able to make trips from town to the farm; however, orders phoned in will receive careful attention.

## 1942 INTRODUCTION

This variety is a large, tall, healthy grower, an ORANGE-RED with deep YELLOW throat with four or five 5½ to 6 inch florets open and plenty of color showing on an 18 to 22 bud spike. It is a fast propagator, bulblets germinate easily and many bloom.

American Legion Trial Gardens at Spring Green, Wisconsin, grew this variety in 1942 and gave the following report: "Bright and brilliant orange-red with deep yellow throat 5 feet tall with a long flower head and 7 open. Color is so bright you cannot miss it in the garden."

Price for 1943, per each: Large \$2.00; Medium \$1.20; Small \$.60; Bulblet 10 for \$1.50

The Gladiolus Grower from a commercial angle is just about a thing of the past for the duration. However, we expect to find time to carry on with some new seedlings, and also keep up with the better varieties.

A few Glads in your Victory Garden this year will bring considerable enjoyment and compensate you for those long dreary hours spent at home with the rations.
